

bathrooms *to love*

brought to you exclusively by our bathroom specialists

SPRING | SUMMER 2020 **ISSUE 16**

Stylish and practical

Ensure the morning routine runs smoothly with everything in its place and easy to find. It's easy to maintain a sense of order and maximise limited space with clever design and innovative storage furniture.

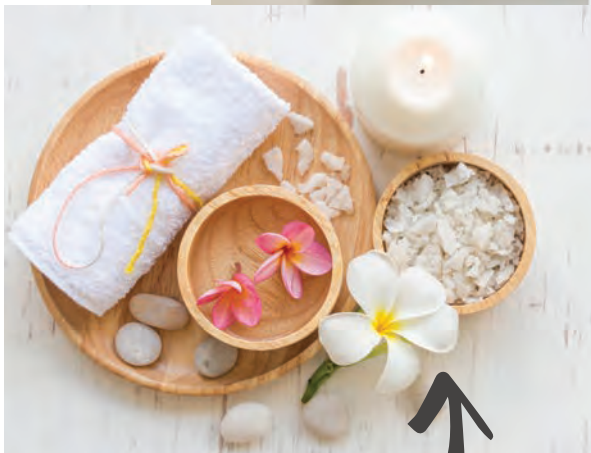

Get inspired

Achieve your own look with the perfect style combination. With some simple choices and a little imagination, stepping into your bathroom can feel like stepping into another world.

Personalise your space

By thinking about the details you can enhance the whole look of your bathroom. Add your own personal style with your choice of wall art, seating, fixtures and fittings.

Create a spa-like feel

Your bathroom is a sanctuary, a place to rest and rejuvenate. With clever lighting you can create an ambience of peaceful calm – put your favourite music on, light a scented candle, add a splash of luxury bubble bath and relax!

Bathrooms have *evolved!*

After the living room and kitchen, your bathroom is the most visited room by guests to your home. Over time, more and more attention has been given to bathroom design, and today, the creative solutions and choices available for furniture, sanitaryware, taps, showering and accessories, makes designing your perfect bathroom achievable and a real labour of love!

Brought to you exclusively by our Furniture Specialists

Metal Frames Furniture Trend

Metal accents are the latest trend giving a feel of the industrial style.

Timeless Elegance

Shaker-style bathroom furniture masterfully merges modern and traditional elements.

Luxury Curves

Modern curves that are smooth to the touch afford a softer, more refined look.

Washbowl Trend

Make your bathroom ultra-modern by pairing a stylish shaped washbowl with your bathroom furniture, also introducing the latest colour trends.

Redefining *furniture*

Bathroom furniture can be both practical and beautiful whether it's modular or fully fitted. Modular furniture has individual units that can be fitted anywhere in your bathroom space to create a bespoke look. Fitted furniture is designed to have units that fit flush together giving flexibility to choose any combination of units to fit your exact space.

New

Framework

Wall hung & floor standing furniture

Framework is a contemporary urban design, with an industrial look that will turn your bathroom into a stylish bathing space.

Modern shaped black metal handles complement the stylish metal framework. Each unit has a large soft close storage drawer for towels and toiletries and a handy shelf for additional storage.

Lucia

Traditional floor standing furniture

A truly transitional range with style and versatility to look equally as beautiful in both traditional and modern bathrooms. Lucia brings together the best of both with a textured woodgrain feel and brushed chrome handles to the more modern framed style door and on-trend decors.

The Lucia basin units come with a generously sized basin

Whichever colour or finish you choose, our brushed chrome handles are the ideal finishing touch

The textured woodgrain finish of Lucia furniture, combined with the colour finishes, will bring a high-end sophistication to any bathroom

The distinct edging of the framed doors provides a design feature that gives Lucia a modern twist

Lucia

Our suites are sourced as much for their design aesthetic as their practicality, giving you a highly attractive look for your new bathroom.

Brought to you exclusively by our Suites Specialists

Space friendly options

The demand for cloakrooms and en-suites has never been so high, making the most of space has pushed bathroom design to its limits. We have practical products that are space-conscious and highly functional.

Why not go rimless?

Currently a growing trend, rimless toilets offer a seamless sleek look and benefit from being more hygienic than a rim.

Wall mounted style

Wall mounted WCs are increasingly popular, as they not only provide a stylish design option, but also create the illusion of extra space, ideal for smaller rooms. Easy access all around the pan also makes them easier to clean.

Style setting *Suites*

The shape of your suite sets the style for the rest of your bathroom, so it's important to consider what look & feel you want overall when choosing. We have sizes to suit large bathrooms or small cloakrooms and a range of shapes that reflect the most popular current styles.

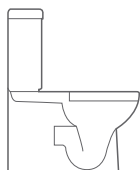

BACK TO WALL *(Top Image)*

SEMI RECESSED BASIN *(Centre Image)*

CLOSE COUPLED FULLY SHROUDED WC *(Bottom Image)*

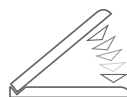

CLOSE COUPLED OPEN BACK WC *(Left Image)*

How to choose the *right suite options for you*

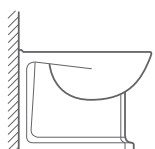

Close Coupled WC

A close coupled WC has the cistern resting directly on top of the pan towards the rear.

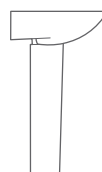

Soft Close Seat

The soft close function ensures that the seat and lid close slowly without banging against the pan, reducing noise and risk of damage.

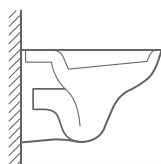

Back to Wall WC

A back to wall WC has the concealed cistern hidden behind a wall or fitted furniture.

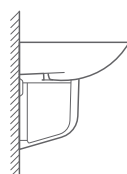

Full Pedestal

The most popular choice, a full pedestal hides all the pipework whilst supporting the basin.

Wall Hung WC

The pan is held off the ground by a hidden supporting frame and, as with a back to wall WC, the cistern is hidden.

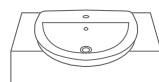

Semi Pedestal

Increasingly popular, a semi pedestal sits under the basin and hangs from the wall, freeing up floor space below it.

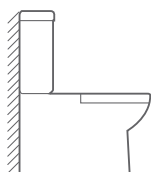

Rimless WC

Rimless WCs are easier to clean as they flush without needing a rim.

Semi Recessed Basin

Designed to be mounted into a work surface or furniture, the front of the basin protrudes forward, whilst the rear part is recessed.

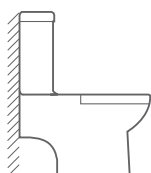

Fully Shrouded

The waste pipe and water inlet are fully shrouded within the ceramic, the toilet sits flush against the wall.

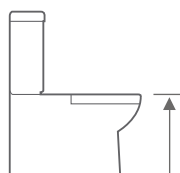

Countertop Wash Bowl

Designed to sit on top of a work surface or furniture unit.

Open Back

Open back toilets have access at the back for your pipework, perfect if you are planning to box in the pipes from left or right.

Comfort Pans

Set at a 450mm height or more, Comfort Pans provide added comfort, especially for taller people or the elderly.

Tilia

Square design with a soft finish

On-trend design, with a smooth finish to this stylish square suite. It's fine design incorporating ultra thin edges complements any bathroom design.

Tilia with Perla furniture

Rimless *the height of cleanliness*

Rimless WCs are easier to clean as they flush by propelling jets of water around the bowl without needing a rim.

They are highly efficient and can easily be incorporated into any bathroom and can be mixed perfectly with other products in the range.

Cilantro

Smooth curves & clean lines

With its smooth curves and clean lines, the understated style of Cilantro complements many looks and works well in any bathroom.

Practical showering

Browse our stylish bath screen range in many shapes and sizes with innovative design and contemporary aesthetics across the collection.

A modern marvel

Back to wall baths combine functionality with style and innovation giving the look of a freestanding bath with the practicality of a standard bath.

Best of both worlds

Shower baths provide the best of both worlds when it comes to choosing between baths and showers when space is limited. Making the most of your bathroom space, a shower bath is the perfect solution as they have a larger width at one end for showering.

Baths & Bath Screens

There has never before been so much choice and versatility with baths, and you no longer have to choose between practicality or style, as now, with our latest range, it's so easy to have both!

Freestanding baths can work to create a stunning focal point for your bathroom while also adding a touch of elegance and your own style.

Affordable luxury

Minimalist lines and slim edges give modern freestanding baths greater internal bathing space whilst being an ideal addition to any sophisticated bathroom design.

Freestanding baths

Our collection of Freestanding baths offers a wealth of styles and sizes to choose from. Whether your taste is traditional or more modern, we have the Freestanding bath to create something a little more special enabling you to create the bathroom of your dreams.

Escape, indulge and relax with wellness

Why Wellness?

Why not? Wellness Bathing Systems turn your boring bathroom into a sensual spa. An ideal way to relax after a busy day, before a party or just to escape when the kids are in bed - Wellness Bathing Systems allow you to indulge in a luxury experience without even leaving the house. And they're packed with health benefits too, so you can splash out on the system of your choice without feeling guilty. Which is perfect. With a dedicated aftercare service you can be assured of total peace of mind.

And... It's good for you!

Wellness Systems make you feel good from the inside out. In fact, taking some time to kick back in a bath fitted with a Wellness system could help reduce the effects of stress, counteract tension, improve circulation and reduce the heart rate. It also helps remove toxins, cleanses and tones the skin, and relieves tired, aching muscles. Take it from us, once you've tried Wellness, you'll never go back!

Wellness systems

WELLNESS 6 JET WHIRLPOOL SYSTEM

Features:

- 6 chrome effect variable jets
- Chrome effect dual controls
- Includes pre-fitted waste and overflow

This system cannot be used on baths with wood panels.

Jets feed water into the bath as pressure creating a range of massages from relaxing to sports hydro-massage.

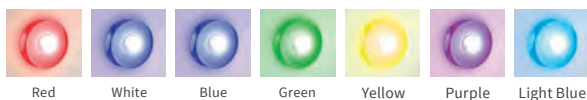

WELLNESS 12 JET AIR SPA

Features:

- 12 air jets positioned in base
- Ultra quiet blower
- Includes pre-fitted waste and overflow

Air bubbles are released into the water producing a gentle, calming, massaging fizz.

Red White Blue Green Yellow Purple Light Blue

WELLNESS CHROMATHERAPY SYSTEM

The chromotherapy system we offer comes with 7 colours: white, blue, red, light blue, yellow, green and purple. They can be set at a constant colour to match your mood or set to run through a carefully pre-selected sequence for emotional balance.

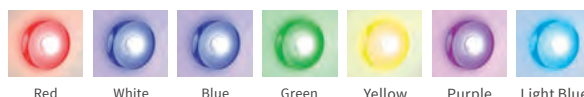

The Chromotherapy whirlpool system includes 21 chrome fixed and directional jets:

- 8 base jets
- 5 whirlpool side jets
- 6 back jets
- 2 reflexology foot jets
- Includes pre-fitted waste and overflow

A directional flow valve allows you to isolate various jets to help relaxation and focus in on certain problematic areas of the body.

1.5hp pump with a flow rate 305 litres per minute.

This system cannot be used on baths with wood panels.

Red White Blue Green Yellow Purple Light Blue

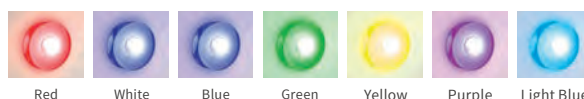

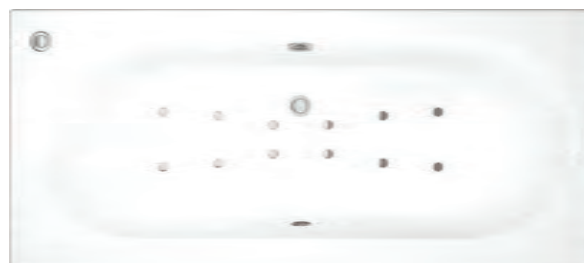

WELLNESS 8 JET WHIRLPOOL SYSTEM WITH MULTI-COLOURED LIGHT

Features:

- 8 chrome effect variable jets
- Single LED colour changing light
- 7 soothing colours to choose from
- Includes pre-fitted waste and overflow

This system cannot be used on baths with wood panels.

Jets feed water into the bath as pressure creating a range of massages from relaxing to sports hydro-massage.

Red White Blue Green Yellow Purple Light Blue

WELLNESS 12 JET AIR SPA WITH MULTI-COLOURED LIGHT

Features:

- 12 air jets positioned in base
- Single LED colour change light
- 7 soothing colours to choose from
- Ultra quiet blower
- Includes pre-fitted waste and overflow

Air bubbles are released into the water producing a gentle, calming, massaging fizz.

Supercast® baths

What is Supercast®?

Strength and beauty combined

Supercast® is a substantial reinforcement process for an acrylic bath.

This reinforcement process results in each bath being incredibly strong and hard-wearing. This gives you the reminiscent assurance of an old cast iron bath with the natural warmth and quality acrylic has.

Acrylic's unique properties make it ideal for manufacturing baths. Acrylic allows itself to be moulded into many shapes giving many possibilities for varied designs, an attribute that enables baths to be manufactured with design and function working in harmony. The natural gloss is cast all the way through the acrylic resulting in a product that is smooth and ever so easy to clean.

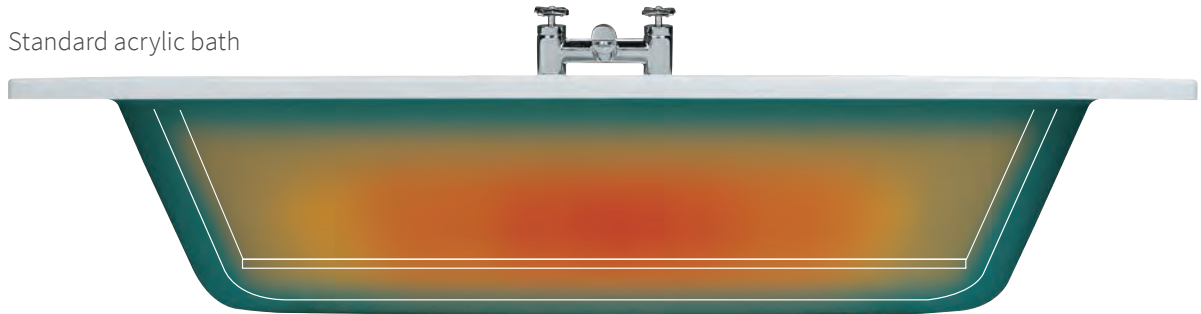

The intensive reinforcement processes and final (green) 'flow coat' jacket to the entire underside of the bath adds strength and insulating properties. This keeps your bath water hotter for longer!

Features:

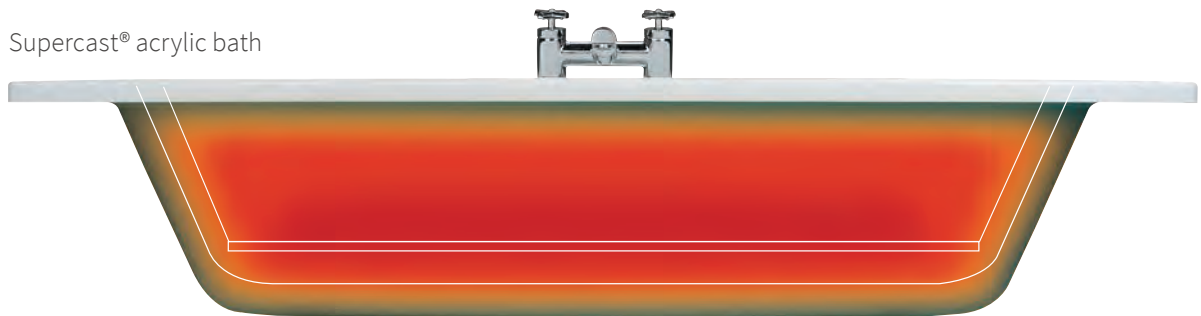

- Intensive reinforced finish to underside of acrylic bath
- Results in a strong, hard-wearing bath, with increased insulation
- Supercast® baths have associated strength of an old cast iron bath but with the benefits of modern material

Standard acrylic bath

Supercast® acrylic bath

SUPER STRONG

Supercast® reinforcement process results in a strong, hard-wearing bath

INCREASES INSULATION

Keeps your bath water hotter for longer

WARM TO THE TOUCH

- Reversible

Our bathrooms increasingly become spaces where design and style are as important as function and practicality. Our aesthetically pleasing enclosures are made from high quality materials and components that will withstand the test of time.

Brought to you exclusively by our
Enclosure Specialists

Wetroom panels still
a strong trend

Wetrooms continue to be highly desirable for their clean minimalist style as well as their suitability for fully accessible bathrooms giving them a great dual benefit. Slim trays achieve a wet room look as a low cost alternative.

Easy clean for an easier life

All our enclosures have easy clean glass that helps repel water and prevent build up of dirt and grime, meaning you can spend less time cleaning and more time doing the things you enjoy!

Black Magic

The industrial look is a key trend for shower enclosures right now but it's timeless too. Team with a matching black radiator and brassware.

Trays to fit your space

Slate or white with sleek lines, our range of shower trays offer different shapes and sizes to perfectly suit your shower enclosure to create a stylish finish to your bathroom.

Step into our *Enclosures & Trays*

Shower enclosures now feature in most new bathrooms and have developed to become an integral part of defining the overall style of the bathroom.

With a wide range of shapes and sizes on offer, your new bathroom design will be greatly enhanced with the addition of a stylish enclosure.

Easy Clean Glass

Designed for beauty

As our bathrooms increasingly become spaces where design and style are as important to us as function and practicality, our REFLEXION enclosures will add a touch of beauty to any bathroom.

Safe and strong as standard

All REFLEXION enclosures are made from high quality materials and components to give you the ideal, personalised shower experience for years to come.

Designed to complement your personal style

Whether you are doing a complete bathroom refit, creating a new en-suite or updating an existing bathroom, our enclosures are completely versatile in their appearance, shape and size.

RefleXion Care

All REFLEXION enclosures come with a lifetime guarantee for peace of mind. When choosing a REFLEXION enclosure you can be assured we have a genuine commitment to service, spares and aftercare.

M

MERLYN SHOWERING

How it works

As you can see from the diagrams on the left there are many combinations that can be made.

If you wanted to make up a walk-in wetroom for an area to fit on to a 1200 x 800mm tray or floor. You pick a 700mm and a 800mm panel, which also includes the recommended 500mm minimum opening for the walk-in. So in order to build up your own ideal wetroom area just choose the panel sizes from the table below.

FEATURES

Height: 2015mm
(including rail)

8mm toughened
safety glass

Easy clean
glass coating

Suitable for both
wetroom floors
and on shower trays

Comes with 1 metre
stabilising bar which
can be cut to fit your space

Showerwall

Showerwall with swivel panel.

Cube with fixed return panel.

Walk-in.

Walk-in with swivel panel.

Showerwall with vertical pole.

With 8mm glass thickness and an enclosure height of 1900mm, Vivid sublime has been specially selected to offer innovative engineering and the best contemporary design.

TRAYS INCLUDE WASTE

High flow vortex waste with stainless steel cover

Low profile trays

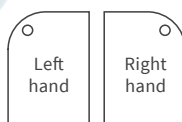

An incredibly discreet profile of just 40mm, this ABS capped acrylic stone reinforced tray makes the Slimline Tray offer the contemporary design of a wetroom styling. Whether it is installed flat to the floor or raised on legs, it's sure to impress.

The 90mm fast flow waste allows up to 32 litres of water to be carried away every minute.

- Made in the UK
- 40mm high, ABS capped acrylic stone
- Low profile design
- Tested flow rate of over 32 litres per minute
- Install flat to the floor or raised on legs
- 10 year guarantee

Offset Quadrant

Includes self adhesive pads for flexible installation.

For dimensions please see technical specifications.

TRAYS INCLUDE WASTE

90mm Fast Flow Waste, top access

Whether it's a quick morning refresh or a longer evening shower to rinse away the day, our showers will meet your every need whatever the time.

*Brought to you exclusively by our
Showers Specialists*

Easy to operate

Our impressive collection of mixer showers includes a super easy push button style, so you can now enjoy a satisfying high pressure shower literally at the push of a button.

Affordable style

It's the finer details that make all the difference to the overall look and feel of a beautifully designed space.

The ultimate home experience
Italian designer showering for
discerning home-owners.

Step into our *Showers*

Mixer showers connect to the hot and cold water supplies and then mix the water inside the shower to your selected temperature. They normally deliver a higher flow rate than electric showers and are often thermostatic to protect against scalding. Ideal for homes with readily available hot water. You can also add a pump if required to boost the flow from a gravity fed system.

Electric showers connect to the cold water main supply. A heating element inside the unit heats up the water as it passes through. It doesn't rely on stored water and provides instant hot water on demand.

VEMA

Italian design, engineering, elegance and practicality.

These are the characteristics that you can count on by trusting in VEMA.

The balance between beauty and reliability will add a touch of quality to any bathroom.

Every detail shows the long experience of those working for many years in the taps and fittings industry with reliability and competence at its core.

Mixer showers

These connect to the hot and cold water supplies and then mix the water inside the shower to your selected temperature. Mixer showers normally deliver a higher flow rate than electric showers and are often thermostatic to protect against scalding. Ideal for homes with readily available hot water. You can also add a pump if required to boost the flow from a gravity fed system.

For information on water systems see Technical Specifications page 308.

Mixer showers

TMV2 Thermostatic valves

Thermostatic mixing valves protect against scalding. The thermally sensitive mechanism within the valve mixes hot and cold water to a preset temperature. The mechanism automatically compensates for any variations in pressure or temperature to maintain a safe temperature. TMV2 valves offer high standards of Thermostatic protection for the home.

EXE LEVER THERMOSTATIC BAR MIXER SHOWER

DICM0074 **£144**

- Easy to use lever handles
- Suitable for all water systems including gravity fed

Electric showers

These connect to the cold water mains supply.

A heating element inside the unit heats up the water as it passes through.

It doesn't rely on stored water and provides instant hot water on demand.

Amore

Sleek, modern and ultra-stylish, Amore is an elegant and easy-to-operate shower range you're sure to love using first thing.

- Choice of three finishes
- Crisp white digital display with temperature read-out
- Sleek, contemporary cover
- Touch activated power selector, on/off button and temperature control dial
- Stylish slender shower kit with 22mm rail
- 5 spray pattern rub clean shower head
- 1.5m anti-twist hose

T80Z FAST-FIT THERMOSTATIC WHITE/CHROME

DICE0016 8.5KW	£423
DICE0018 9.5KW	£438
DICE0020 10.5KW	£453

The T80Z Thermostatic Fast-Fit uses the Dura-Flow™ technology for a longer lasting shower, making it ideal for hard water areas. With all the installation benefits of the Fast-Fit but with precise thermostatic temperature control, this T80 is ideal for busy households where someone is always using water, whether flushing the toilet or running a tap.

- 8 water and 6 cable entry points
- Push button Start/ Stop
- Swing-Fit™ terminal for left and right-hand side cable connections
- Swivel-Fit™ - A 180° fully reversible water inlet for left and right-hand side water connections
- Riser rail shower kit with adjustable fixing centre
- 5 spray pattern rub clean shower head
- 1.25m anti twist hose

Power showers

Triton's **NEW** silent running thermostatic power shower is so quiet that when the water is running, you won't hear the pump, and as such has been awarded the Quiet Mark award of approval.

The AS2000SR is the perfect solution for those with low pressure systems, providing a great flow rate of up to 14 litres per minute

AS2000SR SILENT RUNNING THERMOSTATIC POWER SHOWER

DICM0502 **£370**

- Silent brushless motor technology also provides unique continuous running performance, means no waiting in-between showers
- Easy to use start, stop button and variable temperature and flow controls to select the perfect shower setting
- Ideal replacement for AS2000XT

Low pressure?

With Triton's booster pump you can get the power performance you demand from your shower, turn any mixer into a power shower or simply boost your low pressure flow rate.

T550I PUMP

DICA0012 **£418**

A highly functional gravity fed pump with variable speed control and limescale resistant material, providing pressure up to 1.2 Bar.

Complementing Style

The taps you choose can make a huge difference to the final look and feel of your bathroom. You can select taps that complement the style of the sanitaryware or furniture you've chosen.

Luxury to budget conscious

From high end Italian brassware to stylish and functional budget friendly options, we have the style, form and function for you.

High Performance

UK water pressure varies from home-to-home. To ensure the correct choice, you need to ensure that your chosen taps are compatible with your plumbing system. Our wide range of shapes and styles also show the pressure requirements at a glance.

Style match shower and taps

Create a harmonious bathroom look with style matched showers and taps. We offer matching and complementary showers to suit many of our tap ranges.

Take time for our *Taps*

Getting the right finishing touches for your bathroom can really add the wow factor and transform your room into a stunning suite.

Keep it in the family

With over 30 stunning ranges to choose from, every collection has a basin tap, bath filler and bath shower mixer as a minimum with many ranges featuring additional options too.

VEMA

Italian design, engineering, elegance and practicality.

These are the characteristics that you can count on by trusting in VEMA.

The balance between beauty and reliability will add a touch of quality to any bathroom.

Every detail shows the long experience of those working for many years in the taps and fittings industry with reliability and competence at its core.

Clever use of decorative lighting as a styling accessory will help move your bathroom design beyond functional into something much more desirable.

Brought to you exclusively by our Bathroom Specialists

Adding warmth with style

A warm bathroom creates a cosy, relaxed space and now, with our latest range of radiators, you can add warmth whilst adding a design feature. Or, if you prefer, with underfloor heating you can heat the whole room and keep your wall space free.

Plan your lighting

Lighting is one of the most important elements of your bathroom, but is often an afterthought. Consider whether you want ambient lighting, task lighting or decorative lighting for different parts of your room and include these at the planning stage.

Practical never looked so good

Incorporate wall mounted accessories into your design for a streamlined look. From hooks and holders to rails and rings, make sure everything has a place whilst coordinating beautifully with the rest of your bathroom fittings.

Finishing *Touche*s

With our range of accessories, from feature radiators to underfloor heating; from simple mirrors to extravagant lighting; you can easily add personality to your bathroom, whether it's flair and panache, or minimalist chic.

Heating features

Radiators & Towel warmers

CH *Central Heating*

The benefit of this type of installation is that it is economical to run when the central heating is on. Suitable for use with indirect central heating systems (your plumber/installer will be able to advise the type of system you have). The radiator is fitted to your central heating system and works alongside your existing radiators.

E *Electric*

The benefit of this type of installation is that the radiator can be installed almost anywhere and does not require any pipework. It has the added versatility of being able to be turned on and off whenever required, regardless of whether or not the rest of your central heating is on. An electrical element kit (see page 267) with a fused spur is required and wired to your electricity supply. The electrical element is screwed directly into the radiator and heats the water.

DF *Dual Fuel*

The best of both worlds! This type of installation is plumbed with indirect central heating systems and or your electrical supply. This guarantees the low cost of a central heating system during the winter whilst ensuring the versatility of being switched on and off independently during the summer months. Central heating, electric or both - the choice is yours!

- Made from aluminium which conducts heat to warm the room up faster
- Suitable to be used in other rooms in the home
- 25 year guarantee

Why Aluminium?

Performance

Aluminium conducts heat many times faster than steel, making it the perfect material for radiators.

Environment

Aluminium is an extremely eco-friendly material. It can be recycled endlessly because reprocessing doesn't damage its structure. It is also the most cost-effective metal to recycle.

Lifecycle

Aluminium doesn't rust so we give a 25 year guarantee against leakage.

Undertile heating

If you're looking for the ultimate luxury in bathroom heating, then you need look no further than our range of Warmup floor heating systems.

The process is simple, there is no need to dig up your old floor. Select your heating system, decide how much you need, and choose your thermostat. Three simple steps to affordable luxury. Warmup floor heating is specifically designed for use under tiles and natural stone.

WARMUP STICKYMAT

The Warmup StickyMat consists of a thin loose wire evenly spaced and taped to sturdy glassfibre mesh with pressure sensitive adhesive. It allows for the fastest and most secure installation of electric underfloor heating. Simply roll out a length, cut, flip and stick down the mesh until the floor area is covered. It is perfect for evenly heating large or regular-shaped rooms.

150 watt undertile sticky heating mat 1m ²	DIAC0022	£155
150 watt undertile sticky heating mat 2m ²	DIAC0024	£215
150 watt undertile sticky heating mat 3m ²	DIAC0026	£290
150 watt undertile sticky heating mat 4m ²	DIAC0028	£360

SAFETY Net™
Installation-Guarantee

Warmup®

The world's **best-selling** floor heating brand™

WARMUP LOOSE WIRE SYSTEM

The Warmup Loose Wire System uses an ultra-thin, dual-core heating wire that is flexible, easy to install and will not raise floor levels. This system is quick to install and has a single connection lead for fewer steps. It offers flexibility and is ideal for precise installation in irregular shaped areas.

Dual wire undertile heater 300 watt - 1.5 to 2.4m ²	DIUH0002	£190
Dual wire undertile heater 400 watt - 2.5 to 3.4m ²	DIUH0004	£220
Dual wire undertile heater 600 watt - 3.5 to 4.4m ²	DIUH0006	£305
Dual wire undertile heater 800 watt - 4.5 to 5.9m ²	DIUH0008	£395

4iE SMART WI-FI THERMOSTAT

- Bright Porcelain DIAC0036 **£270**
- Onyx Black DIAC0034 **£270**

The 4iE learns how homeowners use their heating and the unique way their house reacts. It then automatically suggests ways to save energy, suggesting what temperature should be set when you are not at home and when you can turn the heating off early. The 4iE offers important advantages to the homeowner and trade professional. Use your smartphone, tablet or computer to control your heating.

TEMPO DIGITAL PROGRAMMABLE THERMOSTAT

(for electric and hydronic underfloor heating up to 16A)

- Porcelain White DIAC0030 **£160**
- Piano Black DIAC0032 **£160**

Enables end users to choose the time as easily as they would with a watch or clock and quickly set their programs – heat on when they want it and off when they don't need it. It helps avoid wasting energy and achieves savings on utility bills.

3iE ENERGY-MONITOR THERMOSTAT

(for electric and hydronic underfloor heating up to 16A)

- Classic Cream DIUH0010 **£215**
- Piano Black DIUH0012 **£215**

The world's first fully interactive, touch technology, energy-monitor thermostat features an easy-to-use interface, eliminating complicated instruction manuals. The display shows recorded energy consumption usage, so that users know the exact underfloor heating costs. Up to 10 programmable periods can be set each day to maximise energy efficiency.

Mirror features

Battery Operated - If you want to avoid wiring but still require LED lighting. Quick and easy to install.

IP44 Rated - All of our products comply with electrical safety regulations and have been given an IP rating of 44, which protects against sprays and splashes of water. See technical specifications for bathroom zones.

Demister Pad - Many of our mirrors contain a demister pad which gently heats the mirror once it is switched on. This then makes the mirror steam free.

Rotatable - Some of our mirrors can be positioned landscape or portrait.

Touch Sensor - Easily allows you to switch your lights on and off with touch.

Infrared Sensor - Easily allows you to switch your lights on and off with the swipe of a hand. No touch needed.

Shaver Socket - Suitable for electric shavers and toothbrushes.

Dimmable - Lighting that can be adjusted at the touch of a button.

Shower water systems

There are a few different types of water systems in homes in the UK. We can usually make some assumptions about the sort of water pressure each will give.

GRAVITY FED SYSTEM

This is usually a tank in the loft space or inside an airing cupboard. A basic guide to establish how much pressure it will deliver is how high the tank is above the tap or shower. If the tank is 2 metres above the level of the tap or shower, the water pressure will be 0.2 bar. If it is 5 metres, the water pressure will be 0.5 bar. Generally this type of system is low pressure however you can increase the pressure by installing a pump. It is recommended to seek advice from a qualified engineer or manufacturer before choosing your pump as these vary in performance.

COMBINATION BOILERS

These are high pressure systems and are usually set to operate between 0.8 to 1.5 bar. Minimum and maximum pressure can be checked with the manufacturer however most boilers have a gauge to show what pressure it is operating at. Combination boilers have an integrated pump so if the water pressure is too low for your required application, adding another pump can damage the boiler.

SEALED/UNVENTED SYSTEMS

These are modern systems. If you have a hot water tank but you don't have a cold water tank (cistern) in your loft or garage, this is an unvented high pressure system. They are quite uncommon as they are more expensive however they can usually deliver around 3.0 bar of water pressure.

Terms and conditions

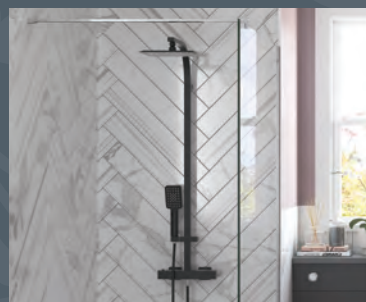

Your new bathroom products have been designed and manufactured to high standards and all come with a reassuring manufacturers guarantee. Guarantees apply to manufacturing defects and do not apply to accidental damage, wear and tear or any item or component rendered defective by unsatisfactory planning, faulty installation, improper or negligent use or damage resulting from failure to maintain the product in accordance with the customer care instructions. Guarantees do not cover any product that has been modified or altered in any way.

Guarantees do not cover any product that is installed with a fault that would have been clearly evident before installation. In the interest of continuing design development and product improvement, we reserve the right to amend or adjust specifications at any time. Where an identical product is no longer available we will supply the nearest equivalent from our current range. Guarantees are for the original purchaser of the product, they may not be transferred to a subsequent purchaser of the premises in which the product is initially installed.
